Press Release From The International Jurists Union (IJU)

The International Jurists Union (IJU) strongly condemns the heinous crime committed by the Israeli forces today against the Palestinian journalist Shereen Abu Aqleh.

The targeting of journalists and killing them despite their distinctive dress code proves the israeli authorities' attempts to prevent the truth about their crimes against humanity from reaching the whole world.

Today at dawn, the Israeli forces stormed the refugee camp in Jenin without knowing that cameras of brave journalists were ready to record this crime, in which they shot dead a journalist who was there to convey the truth to the world.

The IJU calls for an impartial investigation into this crime and bringing perpetrators to justice.

Achieving justice and peace in Palestine and in other hotspots of conflict in the world will remain a top priority to the IJU, which will always be ready to stand up for the rights of the oppressed and victims everywhere.

The IJU offers it's condolences to the Palestinian people, the Palestinian journalists, and the family of the deceased.
